

Abstract of the Disclosure

A TeamPortal View is a dynamic visual representation of the members of a team who may be located at geographically distributed locations. The TeamPortal View provides a Web portal that (a) displays static team information, (b) provides a dynamic
5 view of the team members presence and their current locations, which are collected automatically and up-dated in real-time and (c) allows contact to be made by members of the team using the Web interface to initiate email, chat sessions, person-to-person calls, conference calls or the like.
